

Liveable Streets gives us our chance to make Bow a better place to walk, scoot, shop, cycle and live!

33,000 car journeys go through Bow every day, and 49% of those are just ratrunning through without stopping. They should be on Mile End Road where there's space for them.

All it takes is 5 minutes to make Bow a cleaner, greener place. The Council will water it down if it doesn't get enough support. If you live, work, walk or cycle through Bow, fill in the survey at tinyurl.com/liveablestreetsbow and make all the closures 24/7 - the worst driving's in the evenings

CLOSES 29th July - act now

- Save Skew Bridge - it'll become a road again if it's not made permanent
- Fix the queues on Tredegar, Roman and St Stephen's Roads
- Extend market-style pedestrianisation to 7 days a week - Roman Road is our high street, not a car park
